

# CRYSTALCLEAN HP

Two Third Party Field Studies and 9000+ documented cleanings has demonstrated...

**89%-96%** TSS/SSC efficiency

**40%-74%** Phosphorus

*Now offering a Coliform bacteria media*

The CrystalClean HP option adds pollutant specific media with site specific combinations thereby enhancing the already impressive performance of the CrystalStream product line.

The *only* filter product capable of **100%** cleaning and media change out from above without the need for confined space entry.
