

2012 STORMWATER WEBINAR SERIES

# CrystalStream Free Educational Webinars

FROM DESIGN TO INSTALLATION TO MAINTENANCE

Crystal Stream Technologies has developed a series of **FREE** educational webinars designed with the Engineer in mind, targeting key topics of concern to your project design. CrystalStream Technologies has supplied stormwater treatment products for over 10 years and is the only company in the industry to offer maintenance on their products. To Date 8.6 million pounds of material removed from stormwater. To Register for any of the sessions below copy and paste this link in your browser .... ## 2012 SCHEDULE OF EVENTS:

**January 10th at 1:00pm EST**

Technology Introduction: Keeping oil out of our watershed with new technologies.

**July 12th at 1:00pm EST**

What should you look for in a Stormwater Maintenance Company for your project.

**January 26th at 10:30am EST**

How much P.A.Y. are you giving to the landfills and waste facilities?

**July 24th at 3:00pm EST**

Product Resumes, what are the credentials of the product you are specifying?

**February 16th at 2:00pm EST**

**Field Study Review: Structural BMP meets Infiltration Practice with amazing results.**

**August 2nd at 4:00pm EST**

Technology Introduction: Keeping oil out of our watershed with new technologies.

**March 9th at 11:00am EST**

Product Resume: What are the credentials of the BMP's you are specifying?

**August 30th at 2:00pm EST**

Laboratory Testing: A level playing field, but nothing like reality.

**March 27th at 1:00pm EST**

Stormwater Management: What Went Wrong?

**September 4th at 11:00am EST**

Nutrients, Up close and Personal. How most BMP's fail to control phosphorus and nitrogen.

**April 17th at 2:00pm EST**

How can Proprietary BMP's help Low Impact Development (LID) practices on your project

**September 27th at 1:00pm EST**

CrystalStream wants to apply for your projects. A review of our product resume.

**May 11th at 11:00am EST**

**Stormwater Management Planning:** Decreasing your Post Construction Maintenance Cost.

**October 25th at 10:00am EST**

Proprietary BMP Maintenance: What other products can't tell you.

**May 28th at 1:00pm EST**

Small particles do NOT carry all the bad stuff. Why theoretical chemistry fails when it pertains to stormwater.

**November 12th at 11:00am EST**

L.E.E.D by example. Review of Stormwater LEED credits.

**June 5th at 2:00pm EST**

Product Resume: What are the credentials of the BMP's you are specifying?

**November 30th at 10:00am EST**

It's time to flush the "First Flush". Why design around what you can't catch in a separator.

**June 21st at 10:00am EST**

The World of TSS-- a microscopic view of the tiny material being washed off your site.

**December 12th at 1:00pm EST**

When is a filter NOT a filter? Almost all the time for MTD's
